VENUE

Indian Institute of Teacher Education,
Ramkrushna Paramhans Vidhya Sankul, Kh-Road, Nr. Mahatma Mandir,
Sector-15, Gandhinagar, Gujarat-382016

ABOUT IITE

The Indian Institute of Teacher Education, Gujarat is the institution with the difference because it has been established for a noble cause of education. Indian Institute of Teacher Education has five centers: Center of Education, Center of Research, Center of Training, Center of Extension, and Center of Special Education. Center of Education offers integrated teacher education programmes like B.Sc.-B.Ed., B.A.-B.Ed., M.Sc./M.A.-M.Ed., B.Ed.-M.Ed., M.Ed. and Ph.D. The Government of Gujarat has mandated the institution to be the institution for developing school educators, teacher educators and faculties of allied fields. Hon'ble Prime Minister and then Chief Minister of Gujarat, Shri Narendrabhai Modi has extended the scope of widening the horizons of teacher education because there is a dearth of teachers all over the world. Shri Modi's aspiration was to establish an institution dedicated to nurturing high-calibre educators and preparing them for international opportunities.

ABOUT CENTER OF RESEARCH

The Center of Research (CoR) stands as one of the backbones of the Indian Institute of Teacher Education (IITE) and is dedicated to nurturing young and aspiring minds, encouraging them to delve into the realm of research within the field of education, with a specific emphasis on teacher education. To facilitate and propagate research in the sphere of education, particularly in the context of teacher training, there is a provision for establishing Center of Research, namely CoR as per the IITE Act, 2010 under section 6 (4) (i). This Center comprises five Research Councils, each concentrating on specific focal points of research. The foundational focus of the Center of Research at Indian Institute of Teacher Education revolves around key research areas, including:

- **Exploring the Evolving Roles of Modern Educators:** This entails investigating the changing roles and responsibilities of contemporary teachers.
- **Mastering the Art and Science of Nurturing Gifted Students:** Delving into effective methods for nurturing and developing gifted children.
- **Understanding the Art and Science of Caring for the Vulnerable:** Addressing the unique challenges in caring for individuals who face psychological and physical challenges.
- **Exploring Special Issues in Childhood, Adolescence, and Youth:** Focusing on the distinctive challenges and needs of these critical developmental stages.
- **Examining the Philosophy and Psychology of Education within the Context of Indian Pedagogy and Contemporary Developments:** Delving into the philosophical and psychological underpinnings of education in the context of Indian pedagogy and modern developments.

ABOUT THE SEMINAR

The National Education Policy 2020 introduces a significant reform to transform the educational landscape from the foundational stage. Foundational education is crucial as it lays the base for a child's future learning and development. Strong foundations in the early years are considered to be critical inputs in improving enrolment and participation of children in formal schooling.

Considering this context, the Center of Research at the Indian Institute of Teacher Education Gandhinagar is conducting a national seminar on **SHAPING THE FUTURE: NEP 2020 IN FOUNDATIONAL EDUCATION**. The primary objective of the seminar is to underscore the significance of foundational education in shaping a child's cognitive, social, and emotional development. It aims to explore innovative approaches and pedagogical methods to ensure that every child receives a robust foundation for lifelong learning. The seminar intends to provide a forum for experts, practitioners, researchers and stakeholders across the country to share their insights about the various aspects of foundational education. The core objective of the seminar is to revolutionise the Indian education system starting from the foundational stage as envisioned by the NEP 2020.

During the seminar, participants will share success stories, evidence-based best practices, and empower teachers and educators to provide an optimal learning environment to promote the holistic development of a child at the foundational level. By prioritizing foundational education and adopting a comprehensive approach, stakeholders can lay the groundwork for a more equitable, inclusive, and sustainable future.

OBJECTIVES OF THE SEMINAR

- To explore novel possibilities and best practices at the foundational stage.
- To revamp optimal learning environment and holistic assessment methods at the foundational stage.
- To facilitate a dynamic forum where experts, educators, researchers, and practitioners can share insights and perspectives regarding the latest trends and pedagogies at the foundational stage.
- To highlight the significance of community participation and the role of stakeholders in Early Childhood Care and Education.
- To accentuate the integration of technology in Early Childhood Care and Education
- To cultivate the idea of inclusivity and multilingualism at the foundational stage.

SUB -THEMES

- Approaches for Foundational Education: Exploring Developmentally Appropriate Pedagogy for Early Childhood Care and Education
- Cultivating Optimal Learning Environment at the Foundational Stage
- Exploring Holistic Assessment Methods and Tools for Early Childhood Care and Education
- Involving Parents and Engaging Communities: Partnerships in Early Childhood Care and Education
- Equipping Early Childhood Educators: Strategies for Curriculum Implementation and Classroom Management
- Early Literacy and Numeracy Development: Strategies and Best Practices
