The property might have instantaneous value in terms of demand and supply, but the prosperity brings peace and solace to one's life. A teacher is an angel in this term; he/she brings joy into life that draws prosperity. However, from where one can have the training for becoming efficient, dynamic and excellent teacher; I am sure you are at the right place. The knowledge of academic subjects along with practising teaching is the key concern and the 4-Year Innovative Integrated Teacher Education Courses are offered. These courses have wider perspective and the scope to develop multicore abilities among prospective teachers is intermingled with the curriculum transaction. The teacher who can sing, draw, enact, explain, elaborate, discuss, play games; in nutshell a real hero who can explore the world of information in a manner learners' wish, is our vision and mission.

The prospective teachers can extend their horizons to explore the world of knowledge to peep into the minutest concern of the subject or faculty can knock the doors of our PG Programmes. These programmes have been designed to enrich the information transferring into the real substance, knowledge. The teacher educators, who are the front-runners of envisioning the education of tomorrow, are dire need of society or state. The policy makers, academic administrators, assessors and evaluators, curriculum designers, content writers for text-books, e-Content developers; there are numbers of vocation exist in the world of education yet very few professionals are available.

The school and society, learners and teachers, parents and communities, policymakers and academic administrators wish to have such studies, which shows them a clear and substantial path to invade for the development and prosperity. The research programmes, which we offer, have specific procedures and techniques, which has been incorporated easily in the system. Our focus is to enrich the substantial knowledge that helps the stake holders to minimize the chances of risk.
